INITIAL HOSTAGE DEBRIEFING REPORT

EXECUTIVE SUMMARY

A joint Department of State (DoS)/Department of Defense (DoD) Debriefing Team interviewed 50 of the 52 returnees during a two and a half day period in Wiesbaden USAF Hospital, Germany. [REDACTED]

Interviews confirmed most of the details concerning the initial takeover. [REDACTED] instructed Marines, by radio, to withdraw to the second floor after being informed they could not contain students in the basement. [REDACTED] gave the order to [REDACTED] to instruct the Marines not to shoot or use tear gas after they had moved to the second floor. [REDACTED] then made the decision to open the second floor doors, which he relayed by radio to [REDACTED]. A number of returnees commented on the general breakdown in the Chain of Command, which apparently occurred once [REDACTED] was taken prisoner. Pasdaran/Revolutionary guard involvement in the initial takeover appears likely, and several returnees mentioned the possible presence of PLO in interrogations during early stages of detainment.

The control of the hostages fluctuated between consolidation and dispersion. Three detention sites in Tehran were used between 4 November and mid-December 1979, the Embassy Compound and two private residences. During this initial period more than 20 hostages were rotated between the compound and the two residences. By mid-December all hostages, with the exception of the three who resided in the Ministry of Foreign Affairs (MFA), were back on the compound where they remained, dispersed internally until March 1980. Beginning in mid-March all 49 were consolidated in the Chancery where they stayed together until the evening of 25 April 1980.

During the night of 25/26 April 1980 a rapid and almost complete dispersion took place. Three small groups were located within Tehran; in the Chancery, Evin Prison, and a residence. The remainder of the hostages were immediately dispersed throughout the country. Those in Evin and the Tehran residence were moved out of Tehran within a few days, those in the Chancery remained.

THE CONTENT OF THIS REPORT IS  
EXTREMELY SENSITIVE. ANY FURTHER  
DISSEMINATION SHOULD BE  
MADE WITH UTMOST DISCRETION

~~SECRET~~

~~SECRET~~

Beginning in June 1980 a reconsolidation into Tehran began. As the hostages returned to Tehran most were placed in Komiteh Prison. By September the majority were held in the Komiteh Prison. At the end of October the five in the Chancery were relocated and split between Komiteh and Evin Prisons. By 1 November the Embassy compound was vacant of Americans.

Assembly of the hostages at the pre-release site, a complex in Northern Tehran, began in mid-December and was concluded by 24 December with the exception of the MFA trio. The MFA hostages were taken to Komiteh Prison on 3 January and remained there until 15/16 January when they were taken to the pre-release site.

Departure from the pre-release site to the airport came on short notice, less than fifteen minutes. At the airport the hostages waited less than an hour before boarding the Algerian aircraft for the flight to Wiesbaden via Algeria.

Hostage treatment during captivity varied but included beatings, long periods of solitary confinement, extended periods of being tied or handcuffed, mock firing squads, in several cases denial of medical attention or medication, and threats of being thrown to the crowds. Individuals receiving serious abuses appear to fall into three categories; those who were known or suspected to be associated with the CIA/Intelligence; those who attempted escape; and those who antagonized their captors.

A complete damage assessment could not be accomplished based on the initial debriefings. However, all classified material from the offices of the Defense Attache, The Charge, Political Officer, and Economic Officer are believed to have been compromised.  belonging to 

The 52 hostages for the most part maintained a high standard of personal conduct and kept faith with their fellow hostages. Exceptions, however, were

## INITIAL HOSTAGE DEBRIEFING REPORT

### 1. DEBRIEFING PROCEDURES:

A joint DoD/DoS Debriefing Team (11 DoD and 11 DoS) interviewed 50 of the 52 Returnees during a two and a half day period at Wiesbader USAF Hospital, Wiesbaden, Germany. The overall four (4) day schedule for the Returnees while at Wiesbaden was established, controlled and manipulated by the doctors and DoS. The Security Debriefings were fit into the schedule beginning at 1300 on the second day and running through 1800 on the fourth day. A total of 134 hours was scheduled for the debriefings (30 three hour sessions and 22 two hour sessions).

C G With the exception of two [redacted] personnel [redacted] all Returnees were debriefed. However, patience and persistence on the part of the debriefers was necessary as schedule conflicts were common place. Medical and dental appointments which often ran late, uniform and civilian clothes fittings, haircuts, and ceremonies often conflicted with scheduled debriefing times. In most cases the debriefers through determination and persistence were able to follow-up with Returnees during free time. The 21 DoD Returnees were scheduled for 56 hours of interviews. Actual scheduled interview time was 54 hours and 40 minutes. DoD debriefers gained an additional 17 hours and 25 minutes through their own initiative, bringing the total time for DoD debriefings to 72 hours and five minutes. The 31 DoS Returnees were scheduled for 78 hours of interviews. Actual scheduled interview time was 70 hours and 50 minutes. DoS debriefers were only able to gain an additional 15 minutes, bringing the total time for DoS debriefings to 71 hours and five minutes. The total figures for scheduled vs actual interview times were: Scheduled - 124 hours, Actual - 143 hours and 10 minutes.

C G The entire debriefing effort was a joint DoS/DoD, undertaking and cooperation was outstanding. One DoS and one DoD debriefer sat in on each interview with only five exceptions. [redacted]

[redacted] replaced the DoS debriefer for [redacted] interview). There was a mutual exchange of all information derived from the interviews, including the exceptions noted above. Based on the interviews conducted each day, a joint DoS/DoD message was prepared each night and transmitted simultaneously to DoS and DIA for limited distribution in the Washington, DC area. Additionally, the DoD Debriefing Team transmitted nightly, a summary profile on each of the DoD Returnees interviewed.

THE CONTENT OF THIS REPORT IS  
EXTREMELY SENSITIVE. ANY FURTHER  
DISSEMINATION SHOULD BE MADE WITH  
UTMOST DISCRETION.

~~SECRET~~

~~SECRET~~

Upon completion of the interviews both DoD and DoS teams displaced to Frankfurt to prepare written interview reports. Each report was coordinated directly by the participating DoD/DoS Team members. Copies of each interview report are attached at Tab G (NOTE: The DoS interview reports attached at Tab G are drafts only. When final copies are completed they will be available for substitution in this report.)

## 2. CHRONOLOGY OF EVENTS

At approximately 1015 hours on 4 November 1979 demonstrators were observed climbing over the main gate of the Embassy. They succeeded in opening the gate allowing a large group of Chador-clad females, carrying placards and banners, to enter the Embassy Compound. National Police units in the area did not move to stop the intruders. Part of the crowd collected in front of the Chancery, others went directly toward the residences. One group broke off from the others and proceeded to the rear of the Chancery and began a forced entry through the basement. Another group had gained entrance to the compound near the Consulate and forced an entry through an unbarred, second story bathroom window.

Word of the presence of demonstrators on the compound quickly spread among Embassy personnel, but there was not panic. The Chancery and Consulate buildings were secured. Off duty Marines in the Bijon apartments were called and told to remain where they were. They were subsequently captured. Telephone contact was established with the Charge at the MFA where he had a 1000 hours appointment. Telephone contact was also made with the DoS Operations Center in Washington, DC.

G [REDACTED] instructed the duty Marines to initiate the Emergency Defense Plan. Upon learning some of the crowd had penetrated the basement of the Chancery, [REDACTED] went down, had a discussion with the student leader, convincing him to withdraw the group. Meanwhile, all Embassy personnel in the Chancery had moved to the second floor.

G [REDACTED] departed the Chancery through the group of penetrators with that group's leader and went to investigate the situation at the Consulate building. He found the building secure after the attempted penetration through the second floor window was thwarted by [REDACTED] then returned to the Chancery with the student leader.

Due to the lack of demonstrators near the Consulate, most of its occupants were able to escape in small groups. The last

~~SECRET~~

group of five were subsequently captured a few blocks from the compound by a combination of students and Pasdaran. National Police in the area did not interfere. This group of Americans was taken to the Ambassador's residence which apparently had been predesignated as a hostage assembly point.

During this time [redacted], after reentering the Chancery, received permission from [redacted] to go back outside and attempt to diffuse the crowd in front of the building. [redacted] left his flak jacket and weapon with the Marine guard and again departed the Chancery building. [redacted] began a dialogue with the student leaders along the lines of allowing them to conduct a sit-in. During these discussions, which appeared to be bringing some control to the situation, two older individuals emerged from the crowd. The crowd now contained a number of males, some of whom were carrying clubs painted with "Down with America".

The two older individuals ushered the student leader aside, took [redacted] radio and told him to have the door to the Chancery opened. [redacted] told his captors such a decision would have to come from the Charge. [redacted] then shouted to the Marine inside the building who had been covering him to call the Charge' and tell him it was just like February 14. This had no immediate result, and [redacted] was led away to the building behind the motor pool, tied, and placed under armed guard.

Approximately ten minutes later he was taken back into the basement of the Chancery through the original penetration point. Inside the building the students had started a fire on the first floor to dispell the effects of a tear gas grenade which was accidentally discharged.

[redacted] was led to the second floor and used to communicate with the people in the secure area. After some delay, during which the situation was discussed via telephone between those in the secure area and the Charge, [redacted] made the decision to open the door. This order was passed to [redacted] and the door was opened. As areas of the Chancery came under student control, they were ransacked and defaced. Attempts to coerse Americans to open safes, often at gun or knife point were common. The takeover was completed by 1500 hours.

As the Americans were captured their hands were tied with pre-cut, pre-knotted nylon rope and they were blindfolded. During the initial capture of each group, particularly those who held out in the secure and vaulted areas, a certain degree of roughness was experienced. After capture, the Americans were confined to either the Ambassador's residence or one of the

~~SECRET~~

~~SECRET~~

Staff cottages. During the next three days, a general screening and identification process of the Americans was conducted by the Iranians. This sometimes included being brought back to a work area and being asked to open safes. It was not until the second day that [REDACTED] who had been at the ICA offices off the compound was caught, and taken captive.

Beginning on 6 November the militants relocated some of the Americans to one of two private residence in Northern Tehran. Eventually more than twenty male Americans were rotated through these two buildings, with a normal off compound number averaging twelve. All the Americans were returned to the compound by mid-December.

~~fst~~ During the third week of November, thirteen of the original 63 Compound hostages were released and it became evident that MFA trio of LAINGEN, HOWLAND, and TOMSETH had lost their freedom of movement. Another six Americans assigned to Embassy were lucky enough to have been off the compound at the time of the takeover and with the assistance of the Canadian Ambassador remained out of sight and eventually were able to leave the country undetected with Canadian assistance. During the period mid-December through mid-March, American hostages were held in the Ambassador's residence, the [REDACTED] and the Chancery, with a single staff cottage used once. By mid-March all the Americans were being held in the Chancery, where they remained until the night of 25/26 April when all but five were moved off the compound. Dispersions out of Tehran began that night with some 34 hostages moved by closed vans in small convoys to the cities of Tabriz, Hamadan, Qom, Esfahan, Shiraz, Yazd, and possibly Jahrom. The others were held in the Tehran area for a few days and then dispersed. Five were flown to Mashad, and the others held in small towns a few hours from Tehran.

Reconsolidation back into Tehran began in early June and continued until late August. By 1 September all American hostages were in Tehran, with the majority (44) held in the Komiteh Prison in downtown Tehran. Five were held in the Chancery and three at the MFA. During the last week of October 1980, approximately a dozen of the senior officers were relocated to the Evin prison complex. By the end of October the Compound had been emptied of Americans with the former Chancery detainees being relocated, the women to Evin and the men to Komiteh. During the week before Christmas all of the Komiteh population was moved to their final detention site, a commandeered hotel complex in northern Tehran. This complex was the site of the Christmas TV filming and the follow-on Algerian visits.

~~SECRET~~

~~SECRET~~

Beginning on 19 January, the Americans were told individually, they were candidates for release and their answers to questions about the conditions of their captivity would have an impact on their chances for release. They also were read an article from an English language edition of an 18 January Tehran Newspaper which summarized the ongoing negotiations. Each, was briefly interviewed by a female militant and answered with non-committal responses. The interviews were filmed "for the student records." Following the interview, each American was given a general physical exam by the Algerian doctors, and returned to the room.

At approximately 1900 Tehran time on 20 January the Americans, were told they had an hour to pack. Within 15 minutes, the guards came back and told them they were leaving. The Americans were blindfolded, placed on several buses and driven to Mehrabad Airport. One American, [REDACTED] was pulled off the bus before it left the hotel because he replied to some profanities made by a guard. He was delivered to the airport separately in a sedan. The trip to the airport took approximately thirty five minutes. The Americans waited on the bus between 30-45 minutes, before being taken off one at a time and ushered through a human corridor of approximately fifty militants. None of the returnees claimed to have been hit or swung at during the movement to the aircraft, but the militants chanted fanatically "Down with America."

### 3. CONTROL, DIRECTION AND SUPPORT:

The militants exercised direct physical control of the Americans from capture to release. The Americans were blindfolded and tied upon seizure and a no-talking rule was imposed. These restrictions remained in force for the first three months. Thereafter, the no-talking ban was lifted between roommates. However, the blindfold rule was applied on all movement out of a cell or room and the hands tied procedure was enforced on any out-of-building transfers. Physical security was high throughout, but varied with time, location and prisoner. During the first few months it was not uncommon for Americans being held in isolation to have an armed militant guard present. By March this procedure had been dropped, with unarmed guards in the hostage hallways and armed guards at key entry and control points and external perimeters. Control extended to censorship of both outgoing and incoming mail. Censorship was a function of prisoner behavior, translation competency of the guard group, volume of mail, and extent of conflicting militant duties.

All external moves even trips from the Chancery to the Mushroom Inn or the Ambassador's residence for showers, were accomplished in cars or vans and under guard. All off-compound transfers were accomplished in vans with the windows blacked out. Circuitous routing was often used to confuse the Americans as to distance and direction. This practice continued until

~~SECRET~~

~~SECRET~~

24 December 1980 when several Americans were moved from one building within the pre-release compound to another. The Americans were blindfolded, hands tied, placed in a closed vehicle and driven around for approximately 20 minutes then brought back to the building adjacent to their point of origin. Transfer from the pre-release site to the airport was done under blindfold and vehicle darkened conditions only. Hands were not tied.

The militants were controlled and responded to direction from a hardline faction of the Islamic religious hierarchy. The continuing presence of Mullahs at the Compound and various detention sites and the use of the private homes of several Mullahs as detention sites confirmed the extent of their involvement. The Mullahs in turn controlled Revolutionary Guard entities throughout the country. The rapid development, coordination and implementation of the 25 April dispersal plan is clear evidence of this interface. Many of the dispersed detention sites were guarded by members of the Revolutionary Guard, and some are believed to have been Pasadaran training sites. The extended use of Komiteh Prison, which is run under the auspices of the Ministry of Justice, controlled by the clerics, is further evidence of their involvement.

Although the militants accomplished much of their own housekeeping chores, they did receive support at least tacitly from secular segments of the Iranian government structure. Such support included news coverage; radio and TV broadcast time and support (all key events were video taped by technical teams from the government-run TV); as well as telephone, water and power service. Revolutionary Guards maintained security around the compound, but allowed free movement to the militants. The militants were given small arms training either by the Revolutionary Guard or the conventional Army. They were provided very sound security advice by knowledgeable persons throughout and given the means and guidance to carry it through. They received support, at least indirectly, from the conventional military elements immediately after 25 April 1980, when measures were initiated to deter another rescue attempt. In addition the militants received substantial information, moral and psychological support from Iranian student groups in the United States.

In summary, the events of the past fifteen months bear the hallmarks of an orchestrated campaign of psychological warfare designed to enhance the influence of the Islamic Revolutionary Hardliners, humiliate the United States, and purge American influence and values from Iranian Society.

~~SECRET~~

~~SECRET~~

## 4. HOSTAGE TREATMENT:

All hostages suffered some psychological and physical mistreatment during captivity. All were tied/handcuffed, blindfolded, incarcerated in prison, and threatened at one time or another. Most hostages feared for their lives at some time during the period. During the takeover and first few days most received rough treatment and/or threats. The sounds of the mob outside the Embassy and the constant possibility the mob would get to them (or they would be given to the mob) was a particularly stressful long-term component of each persons captivity. A number of the hostages were subjected to mock executions in February 1980 which was psychologically stressful to many of them.

Overall, hostage treatment appears to have varied according to the function (real or perceived) and/or the conduct of the individual. Of the 52 hostages at least 20 can be considered to have received serious mistreatment, physical and/or mental. Mistreatment varied but included beatings, long periods of solitary confinement and mock firing squads. Those who received the harsher treatment appear to fall into three categories: those known or suspected to be linked with the CIA or intelligence; those who attempted to escape; and those who antagonized the captors. Examples of mistreatment of DOD personnel follows:

[illegible]

~~SECRET~~

5. DAMAGE ASSESSMENT:

A complete damage assessment could not be accomplished in the limited time available. However, the following information was ascertained during the initial debriefings.

All classified documents on hand in the Defense Attache Office (DAO), to include [REDACTED] project formation was compromised. Additional classified information concerning DAO activities appears to have been provided to the militants following the takeover. The extent of compromise of classified documents belonging to the Defense Liaison Office (DLO) could not be determined.

Most classified documents from the Charge's Office, the Political section and the Economic section appear to have been compromised. Most Communications and Records material is reported as having been destroyed. However, at least a portion of the chronological message file tape may have been compromised.

[REDACTED] Certain documents, however, are known to have been recovered through the reconstitution of documents which had been shredded [REDACTED] Additional classified information [REDACTED] appears to have been provided to the militants after the takeover.

Following is a list of sensitive/classified information known or presumed to have been compromised.

-- Identification of U. S. intelligence personnel and agencies assigned to the Embassy in Iran.

-- Identification of special message traffic to include channels.

~~SECRET~~

~~SECRET~~

(C) -- Information pertaining to [REDACTED]

--SECRET, EYES ONLY PRECHT-LAINGEN Memorandums dated 6 July and August 2, 1979.

(S) -- Information regarding [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

(C) (S) -- Messages concerning the Iranian military.

-- Situation reports to the Department of State.

-- DIA Intelligence Summaries.

-- SI/SAO billeting roster.

(C) (S) -- [REDACTED] Project files.

-- Warsaw Pact Order of Battle.

This list is not meant to be all inclusive and is based solely on cursory analysis of the initial debriefings of the Returnees. It is provided only as an indicator of the nature and extent of the classified material that was compromised.

#### 6. HOSTAGE CONDUCT:

(C) The initial debriefings indicate that at least 47 of the 52 hostages maintained a high standard of personal conduct and kept faith with their fellow hostages. A number of the 47 displayed extraordinary personal strength of character, courage and ingenuity. One individual was personally cited, by a fellow hostage, for bravery. [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

(C) Five of the 52 hostages displayed less than exemplary conduct. [REDACTED]  
[REDACTED]

~~SECRET~~

~~SECRET~~

7. LESSONS LEARNED:

While a complete list of lessons learned will require a more thorough analysis of the initial interviews and possibly follow-up interviews, we believe some general lessons can be drawn from the information obtained to date. These pertain to actions during threats to diplomatic missions and methods for coping with a hostage situation. Lessons learned regarding the security and protection of diplomatic missions will be addressed separately at a later time.

A strict chain of command must be established, understood by everyone, and exercised. When the Ambassador/Charge and/or the RSO leaves the mission, he should personally turn control over to the next senior person present. At the time most Embassy personnel were barricaded on the top floor of the Chancery, no one was sure who was in charge or who gave the order to open the door. Some personnel began emergency destruction on their own initiative, while others waited several hours for the order to be given. The senior Foreign Service person present who could have taken charge relied upon the Charge to make all major decisions from the Iranian Foreign Ministry. [REDACTED] made the decision to commence emergency destruction of classified material, albeit too late, and to surrender the Embassy before destruction was completed. During a crisis, these decisions should be made by the senior person on the scene, who can more accurately assess the situation.

The volume of classified material must be kept at a low enough level to insure that each office holding such material can destroy its entire holdings within 15-20 minutes for those offices not in secure areas and an hour or so for those entities whose work areas are in secure spaces. Large volumes of classified should not be stored outside of vaulted areas.

Training in hostage survival, techniques adopted from this experience and the DoD Survival, Escape, Resistance and Evasion (SERE) training should be provided all Diplomatic and military personnel assigned to a diplomatic post or military liaison mission in unstable, high threat, or terrorist prone areas. Training is especially needed in techniques to counter/recognize interrogation styles. (e.g., pride and ego down, followed by pride and ego up). In many instances personnel divulged information to interrogators because they knew the files had been compromised and assumed their captors already knew the information. Despite the fact that files have been captured, it could take months to read and translate the

~~SECRET~~

~~SECRET~~

documents, and even then, the captors may not understand the significance of much of the information without some explanations from their captives.

BRIEFING STATEMENT

This certificate will acknowledge that I have been briefed on Program EC-79, [REDACTED]

I understand that this briefing has included information affecting the national defense of the United States within the meaning of the Espionage Laws, Sections 793 and 794, Title 18, U.S.C., and that its transmission or revelation in any manner to an unauthorized person is prohibited by law. I therefore affirm that I will not discuss or divulge the information contained in the briefing with anyone except those whom I have determined are cleared for access to this information.

The primary subjects to be protected are:

- The fact that this program was initiated or completed.
- The detail of any concept which was considered or developed.
- Lists of personnel, facilities, other special assets involved in these projects.

I understand that this certificate remains in effect until a formal debriefing.

Access to PROJECT EC-79 is authorized on a strict need-to-know basis. A need-to-know exists only when access is essential to a person for the performance of his official duties. No person shall be deemed to have a need-to-know solely by virtue of rank, title, or position. It has been determined by the Project Officer, BG James H. Johnson, USA, extension 52789, that you have a need-to-know for access to this project. This officer has been charged by the Chairman, Joint Chiefs of Staff, to be the sole authority for determining need-to-know for this project.

You may not of your own authority, regardless of your rank or position, grant access to this project to any other person without prior approval of the above project officer. Any such access approved by the above authorities will only become effective after an individual is formally indoctrinated by this office. If for any reason any person not formally authorized access to this information is afforded such access, that person will be required to execute an "Inadvertent Disclosure Security Acknowledgement" if that will not aggravate the compromise. A full report of the circumstances and degree of this disclosure will be submitted to the project officers ASAP in all cases. DIA will conduct any required security investigations.

The subjects to be protected by this security compartment are:

- a. The fact that this program was initiated or completed.
- b. The details of any concept which was considered or developed.
- c. Lists of personnel, facilities, and other special assets involved in the project.

The provisions of Public Law Title 18, Sections 793 and 794 are applicable to the material contained in this security compartment.

Section 793 - Gathering, transmitting or losing defense information.

Section 794 - Gathering or delivering defense information to aid foreign governments.

Both Sections provide for imprisonment of up to TEN Years and fines of \$10,000 upon conviction, for individuals who willfully disclose or compromise information to unauthorized persons. Copies of Sections 793 and 794 are available for your review.

PERSONNEL ROSTER DISC A-9

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

Access rosters for PROJECT EC-79 will be maintained by J-3 (JOD). Verification or certification of an individual authorized access to the project will be accomplished in all cases by calling J-3, OPG, Ext OX5-2791. You may ask what EC-79 access an individual is authorized. You will be advised that the individual is authorized.

Document control and storage procedures must abide by normal sensitive compartmented information (SCI) or collateral security standards depending on the actual classification assigned to the material. Project material should be stored only in designated containers within areas accredited for the appropriate classification of the material.

Subj: Naval Special Warfare Capability in WESTPAC.

BACKGROUND

Naval Special Warfare Unit ONE (NSWU-1), a component of Naval Special Warfare Group ONE, is located at Subic Bay, R.P. The Unit is fully manned with the following forces:

- NAVSPECWARUNIT ONE (Staff): 6 Officers/13 Enlisted.
- SEAL Team ONE: Detachment OinC (1OFF/2 ENL) and two SEAL platoons (5 OFF/26 ENL).
- UDT ELEVEN or TWELVE: 2 OFF/16 ENL.
- SPECBOATRON ONE Detachment: 1 OFF/10 ENL.
- SDV Platoon: SEAL or UDT (2 OFF/8 ENL).
- Supporting craft: 1 PB MK-3, 5 LCPL MK-11, 1 PCF.

DISCUSSION

NAVSPECWARUNIT ONE provides forward-deployed Naval Special Warfare capabilities to COMSEVENTHFLT. With the exception of Special Boat Squadron personnel, all operators are parachute, SCUBA, and demolitions qualified. All SEAL and UDT platoons are trained in and routinely exercise small-unit land tactics. In addition, the Swimmer Delivery Vehicle (SDV) platoon possesses the capability of submerged ingress/egress to/from maritime objectives. All of these forces provide a PACOM in-theater capability to plan, train for, coordinate and conduct Naval Special Warfare and Unconventional Warfare operations. Specific operations could include, but are not limited to: operations in maritime areas to destroy or sabotage enemy shipping, port and harbor facilities, bridges, railway lines and other installations; conduct reconnaissance, surveillance, and other intelligence gathering tasks in maritime areas including coastal patrols, harassment and general interdiction of lines of communications. Moreover, NSWU-1, when augmented by the parent command, possesses an organic Command and Control Communications (C3) capability which increases significantly the Unit's ability to respond to higher authority. The C3 capability is also air-mobile (C-130).

RECOMMENDATION

None, provided for information only.

F-14

a. General Description

- Two seat carrier-based multi-role fighter.
- Variable-geometry wing
- Probe/drogue refueling
- Fighter escort, defends fleet, attacks tactical targets
- Hughes AN/ANG-9 weapon control system
- Karser AN/AVA-12 vertical and head-up display system

b. Characteristics

- Power plant: Two Pratt and Whitney FG-30-P turbofan engines 20,900 lbs thrust each with afterburning
- Dimensions: wing span unswept 64'1.5", swept 38'1.9" length 61'11.9", height 16'0"
- Max speed mach 2+
- Service ceiling above 56,000 feet

c. Armament

- One General Electric M61-A1 multi-band 20MM cannon
- 8 air-to-air missiles
- 14,500 lbs ordnance

d. Range

- Combat 820 NM
- Max 1,000 NM

## F-4 (Navy)

### a. General Description

- Two seat all weather fighter
- Probe/drogue refueling
- Air interception radar
- Inertial navigation system

### b. Characteristics

- Power plant: Two General Electric J-79 turbojet engines 17,900 lbs thrust with afterburning
- Dimensions: wing span 38'5", length 58'3", height 16'3"
- Max gross weight 54,600 lbs
- Max speed at 40,000 feet mach 2+

### c. Armament

- M-61A 20MM multibarrel gun (POD)
- 16,000 lbs air to ground munitions
- 8 air-to-air missiles

### d. Range

- Interceptor over 900 miles
- Ground attack over 1,000 miles
- Ferry 2,300 miles (refueled inflight)

### e. Aircraft location

	<u>Auth</u>	<u>Poss</u>
- Atlantic Fleet	72	56
- Pacific Fleet	48	50
- Reserves	48	40

### f. Comments

- F-4 is in the process of being phased out. Will be replaced by F-14/F-18

~~SECRET~~

## A-6/EA-6B/KA-6D

### a. General Description

- Two seat carrier-based attack bomber
- Turreted electro-optical sensor package (some versions)
- High-resolution image forward-looking infra-red display (some versions)
- Probe/drogue refueling
- Low level all weather attack bomber
- Doppler navigation system
- Built-in maintenance test equipment
- Moving Target Indicator (MTI)
- Inertial Navigation System (INS)

### b. Characteristics

- Power plant: Two Pratt and Whitney J-52 turbojet engines 9,300 lbs thrust each
- Dimensions: wing span 53'0", length 54'7", height 16'2"
- Max gross weight 60,400 lbs
- Max speed 600 kts
- Service ceiling 44,600 feet

### c. Armament

- 17,280 lbs ordnance MAX
- 9,000 normal

### d. Range

- Combat radius normal ord load 600 radius
- Ferry 3000 nm

### e. Aircraft location

	<u>Auth</u>	<u>Poss</u>
- Atlantic Fleet	118	112
- Pacific Fleet	119	110
- Reserves	0	0

### f. Comments

- EA-6B is four seat electronic countermeasure version
- KA-6D is air refueling version

## A-7 (Navy)

### a. General Description

- Single-seat carrier-based light attack aircraft
- Triple-redundant hydraulic system for flight controls
- Heads-up display
- Doppler radar
- Probe/drogue refueling
- Continuous-solution navigation and weapons delivery system
- Nuclear capability

### b. Characteristics

- Power plant: One allison TF41-A turbofan engine 14,250 lbs thrust
- Dimensions: wing span 38'9", length 46'1 1/2", height 16'0 3/4"
- Max gross weight: 42,000 lbs
- Max speed: 600 kts

### c. Armament

- 6,000 lbs ordnance normal
- one MG1-A1 20MM cannon

### d. Range

- Combat radius normal ord 600 nm
- Ferry range: 3,000 nm plus

S-3

a. General Description

- Twin turbo fan carrier-borne anti-submarine aircraft
- Fully integrated Avionics system
- All current surface and subsurface target acquisition, collection, processor, and storage systems onboard
- Crew of four

b. Characteristics

- Power plant: Two TF-34 high by-pass rotor turbo fan engines, 9,275 lbs thrust each
- Dimensions: wing span 68'8", length 53'4", height 22'9"
- Max gross weight: 52,539 lbs
- Max speed: 450 knots

c. Armament

- Split weapons bays with bomb rack assemblies and wing racks carry full spectrum of conventional armament and nuclear depth bombs

d. Range

- Over 2,000 NM combat mission
- Over 3,000 NM ferry range

e. Aircraft location

	<u>auth</u>	<u>Poss</u>
- Atlantic Fleet	63	63
- Pacific Fleet	76	81

## **MIDWAY Class Aircraft Carrier (CV)**

### **a. General Description**

- Class consists of MIDWAY (CV-41), commissioned September 1945; and CORAL SEA (CV-43), October 1947.
- Both carriers have been extensively modernized; most extensive conversion "package" gave them angled flight decks, steam catapults, hurricane bows, new electronics and new elevators.
- CORAL SEA will be decommissioned when VINSON is completed.
- MIDWAY will probably be retained in service into 1980's to provide 13-carrier force level.

### **b. Characteristics**

- 64,000 tons full load displacement
- Length 979 ft overall; 121 ft beam; 35 ft draft
- Main engines are four geared steam turbines developing 212,000 shaft horsepower; four shafts
- Twelve 615 p.s.i. boilers
- Speed 33 knots
- Complement 2,615 ship's company plus 1,800 assigned to embarked air wing for total crew of 4,415 per ship.

### **c. Armament**

- Three 5"-54 calibre dual purpose guns.
- Embarked aircraft

### **d. Aircraft Inventory**

- Approximately 75 various types

### **e. Homeport (as of 1 June 1979)**

- CORAL SEA - Alameda, California
- MIDWAY - Yokosuka, Japan

~~SECRET~~

~~SECRET~~

## KITTY HAWK Class Aircraft Carrier (CV)

### a. General Description

- Class consists of KITTY HAWK (CV-63), commissioned April 1961; CONSTELLATION (CV-64), October 1961; AMERICA (CV-66), January 1965; and JOHN F. KENNEDY (CV-67), September 1968.
- Built to FORRESTAL design and easily recognized by their smaller island structure which is set further aft.
- Also known as "improved FORRESTAL class"

### b. Characteristics

- 80,300 tons full load displacement. KENNEDY is 80,800 tons
- Lengths vary from KENNEDY and AMERICA 1,045 ft up to CONSTELLATION'S 1,072 ft; 265 ft beam, 36 ft draft
- Main engines are 4 geared steam turbines; 280,000 shaft horsepower; 4 shafts
- Eight 1,200 p.s.i. boilers
- Speed 35 knots
- Complement 2,800 ship's company plus 2,150 assigned to embarked air wing for total crew of 4,950 per ship

### c. Armament

- Two Twin Terrier surface-to-air launchers (MK 10) in KITTY HAWK, CONSTELLATION, and AMERICA; 3 Basic Point Defense missile system launchers (MK 25) with Sea Sparrow missiles in KENNEDY
- Embarked aircraft

### d. Range

- Uses conventional Navy distillate fuel and must be refueled either in-port or by underway replenishment ships as necessary. Approximate range at 16 knots is 8,000 miles.

### e. Aircraft Inventory

- Similar to NIMITZ

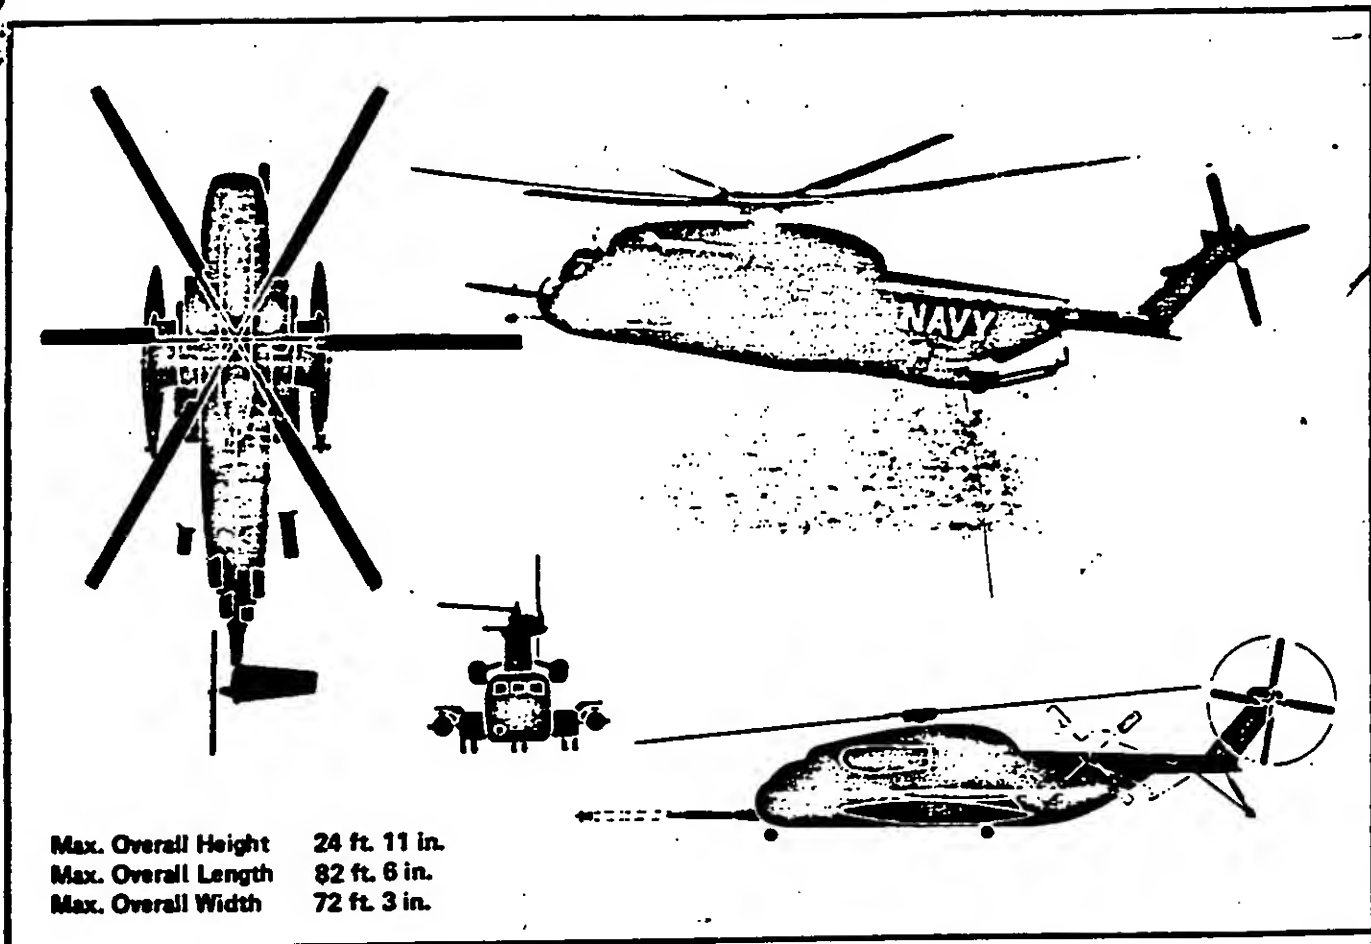

### f. Homeport (as of 1 June 1979)

- AMERICA, and KENNEDY - Norfolk, Virginia.
- KITTY HAWK, and CONSTELLATION - San Diego, California.

# RH-53D SEA STALLION

K-12

The RH-53 "SEA STALLION" is a dual turbine-engined, single rotor helicopter for both land and ship-based operations and has an emergency water operating capability. Automatic flight control and engine anti-icing systems are provided to give the helicopter an all-weather flight capability. An auxiliary power plant (APP) is installed to give the helicopter a self-starting capability. It is equipped with external auxiliary fuel tanks with jettisoning capability, external dual rear view mirrors, rescue hoist, and normally seats 37 passengers. It is equipped with a rear ramp loading system, cargo winches, roller conveyers, and cargo tiedown facilities. Provisions are provided for the installation of internal range extension tanks, air-to-air and helicopter in-flight refueling (HIFR) capabilities, 24 litters, an external cargo hook, and structural provisions for two flexible guns. Primary mission of the RH-53 is airborne mine countermeasures (AMCM) which includes minesweeping and auxiliary tasks such as mine neutralization, mine spotting, floating mine destruction, channel marking, and towing of surface craft and ships. The helicopter's secondary missions are special weapons transport, and movement of cargo, equipment and passengers. Further, the helicopter may be used for the rescue of personnel during an overwater or overland hover and for the transportation of external cargo of inoperable aircraft.

~~CONFIDENTIAL~~

SECURITY INDOCTRINATION FOR EC-79

Access to PROJECT EC-79 is authorized on a strict need-to-know basis. A need-to-know exists only when access is essential to a person for the performance of his or her official duties. No person shall be deemed to have a need-to-know solely by virtue of rank, title or position. It has been determined by the PROJECT OFFICER, BG James H. Johnson, USA, extension 52789, that you have a need-to-know for access to this project. This officer has been charged by the Chairman, Joint Chiefs of Staff, to be the sole authority for determining need-to-know for this project.

You may not on your own authority, regardless of your rank or position, grant access to this project to any other person without prior approval of the above project officer. Any such access approved by the above authorities will only become effective after an individual is formally indoctrinated by this office. If for any reason any person not formally authorized access to this information is afforded such access, that person will be required to execute an "Inadvertent Disclosure Security Acknowledgment" if that will not aggravate the compromise. A full report of the circumstances and degree of this disclosure will be submitted to the project officers ASAP in all cases. DIA will conduct any required security investigations.

The subjects to be protected by this security compartment are:

- a. The fact that this program was initiated or completed.
- b. The details of any concept which was considered or developed.
- c. Lists of personnel, facilities, and other special assets involved in the project.

The provisions of Public Law Title 18, Sections 793 and 794 are applicable to the material contained in this security compartment.

Section 793 - Gathering, transmitting or losing defense information.

Section 794 - Gathering or delivering defense information to aid foreign governments.

Both sections provide for imprisonment of up to TEN years and fines of \$10,000 upon conviction, for individuals who willfully disclose or compromise information to unauthorized persons.

Access rosters for PROJECT EC-79 will be maintained by J-3 (JOD). Verification or certification of an individual authorized access to the project will be accomplished in all cases by calling J-3 OPG, Ext OX5-2791. You may ask what EC-79 access an individual is authorized. You will be advised that the individual is authorized.

Document control and storage procedures must abide by normal sensitive compartmented information (SCI) or collateral security standards, depending on the actual classification assigned to the material. Project material should be stored only in designated containers within areas accredited for the appropriate classification of the material.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

SECURITY INDOCTRINATION FOR HONEY BADGER

Access to HONEY BADGER is authorized on a strict need-to-know basis. A need-to-know exists only when access is essential to a person for the performance of his or her official duties. No person shall be deemed to have a need-to-know solely by virtue of rank, title or position. It has been determined by the PROJECT OFFICER, MAJ GEN JAMES VAUGHT, that you have a need-to-know for access to this project. This officer has been charged by the Chairman, Joint Chiefs of Staff, to be the sole authority for determining need-to-know for this project.

You may not on your own authority, regardless of your rank or position, grant access to this project to any other person without prior approval of the above project officer. Any such access approved by the above authorities will only become effective after an individual is formally indoctrinated by this office. If for any reason any person not formally authorized access to this information is afforded such access, that person will be required to execute an "Inadvertent Disclosure Security Acknowledgment" if that will not aggravate the compromise. A full report of the circumstances and degree of this disclosure will be submitted to the project officers ASAP in all cases. DIA will conduct any required security investigations.

The subjects to be protected by this security compartment are:

- a. The fact that this program was initiated or completed.
- b. The details of any concept which was considered or developed.
- c. Lists of personnel, facilities, and other special assets involved in the project.

The provisions of Public Law Title 18, Sections 793 and 794 are applicable to the material contained in this security compartment.

SECTION 793 - Gathering, transmitting or losing defense information.

SECTION 794 - Gathering or delivering defense information to aid foreign governments.

Both sections provide for imprisonment of up to TEN years and fines of \$10,000 upon conviction, for individuals who willfully disclose or compromise information to unauthorized persons.

Access rosters for HONEY BADGER will be maintained by 1 SOW/AFSOB. Verification or certification of an individual authorized access to the project will be accomplished in all cases by calling 1 SOW/AFSOB, Ext 6266. You may ask what HONEY BADGER access an individual is authorized. You will be advised that the individual is authorized.

Document control and storage procedures must abide by normal sensitive compartmented information (SCI) or collateral security standards, depending on the actual classification assigned to the material. Project material should be stored only in designated containers within areas accredited for the appropriate classification of the material.

26 November 1980

THE JOINT STAFF

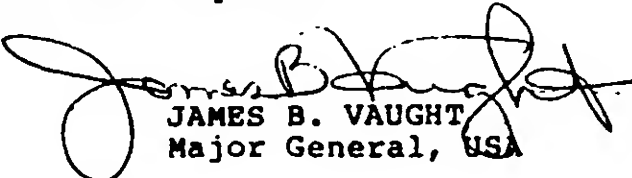

MEMORANDUM FOR THE CHAIRMAN, JOINT CHIEFS OF STAFF

Thru: Director, Joint Staff

Subject: Emphasis of Project "Credible Sport" (U)

Refs: a. My memo, dtd '7 Nov 80, subject as above  
b. Oral guidance from Director, Joint Staff  
on 26 Nov 80

1. (U) (S) My primary purpose in supporting this project (per ref a) was to obtain a quick increase in the number of MC-130 refuelable aircraft (from 7 to 9). The true need is 16. Attainment of the rocket-assisted capability is a much needed but secondary consideration.
2. (U) (S) I have been told that the second "Credible Sport" configured aircraft could be completed and made available as a STOL MC-130 for operational use quickly and at minimum additional cost. A third "Credible Sport" STOL MC-130 can be realized, with some additional cost, by using salvaged components from the first "Credible Sport" MC-130 that crashed during operational testing.
3. (U) (S) It thus appears that the quickest, and most economical way to acquire two much needed STOL MC-130 refuelable aircraft is to adopt the course of action outlined in para 2 above. Since we need these additional aircraft at the earliest possible date, I recommend that minimal further testing be accomplished. Any required additional testing would address the improved STOL characteristics rather than the rocket assisted concept. Further testing of the rocket concept could be continued once a necessary complement of 16 operational MC-130's has been acquired.
